Location

Description

Within 10 minutes from Ibiza, Santa Gertrudis and San Juan, on a mountain overlooking the valley, you will find this 440 m² luxury Blakstad finca on an incredible 28,000 m² plot.

Blakstad combines the fundamentals of Ibiza's architectural tradition with contemporary functionality, form and style. A deep respect for Ibiza's cultural heritage forms the basis of a Blakstad project as new technology, materials and innovative design create stunning villas across the island and beyond. In Ibiza's architecture, the term "a Blakstad house" has become an abbreviation for beauty and quality and carries a prestige based on excellence.

The design is an effortlessly welcoming marriage between tradition and modernity. Not only does the villas laid-back aesthetic capture the spirit of Ibiza but is also situated right in the heart of the island, at Santa Gertrudis.

The villa has the traditional Ibiza set-up, a signature from Blackstad, natural colors and materials predominate. At the same time, the style and luxury quotients are high. An open floor plan and large sliding doors create a spacious, bright and pleasant ambience. In the current plan there are five bedrooms, 5 bathrooms, a large private 70m² swimming pool and plenty of space on the outside terrace to enjoy the sun all day.

The informal garden design softens the traditional architecture and celebrates the ibiza countryside spirit to help relax the atmosphere. It will focus on beautiful spaces that bring the outside in and the inside out. Divided into different environments, the garden will become a place for work, play, entertainment and inspiration. We will bring color and excitement through a naturalistic Mediterranean garden!
