Location

Description

This fantastic modern villa is located in the gated urbanization Vista Alegre and is designed by the famous architect Miguel Arenas. The architecture is clear and minimalist, the equipment leaves nothing to be desired.

Impressive villa of modern design with stunning sea views in secure gated community Vista Alegre offering state of the art qualities, enormous interior spaces, vast swimming pools surrounded by equally spacious dining and lounging areas.

Designed by renown architect Miguel Arenas, the house has been purposefully projected to offer a double height living arena for displaying magnificent art in the form of paintings, sculpture and furniture. The rest of the geometry of the house is distributed around this art inspired gallery, enormous spaces translated into grand suites gently bathed in natural light flooding in through floor to ceiling wall windows. Established in 1968, Vista Alegre is gated, has automatic car registration plate recognition and offers privacy, generous plot sizes and phenomenal sea views across to the Island of Formentera.
